

Course Name

Risk Assessments

Course Overview

Risk Assessment course is designed to give participants a strong understanding of the methodology behind conducting security risk and threat assessments. The course uses group activities and scenarios to help develop each aspect of the risk assessment process. At the end of the risk assessment training programme participants should have the ability to conduct risk and threat assessments in a variety of environments.

Course Objectives

It is not possible to control or manage 100% of risk, but knowing what to do before, during, and after an event will mitigate the damage and harm. Identifying potential hazards and risks and making it part of the day to day business is important. Safety should be the first priority as every business must face the reality of risks and hazards. Through our Risk Assessment and Management course participants will be aware of hazards and risks they didn't realize were around their workplace. Identifying hazards through proper procedures will provide your participants the ability to prevent that accident before it occurs. Limiting and removing potential dangers through Risk Assessment will be an incredible investment.

Who Should Attend
